

VTC2007-Fall

BALTIMORE

Portal to the Future of Mobile Technology

1-3 October 2007 Baltimore, Maryland USA

IEEE Vehicular Technology Society will hold its 66th semi-annual flagship conference at Baltimore's scenic Inner Harbor, Maryland USA. Great seafood and the bustling harbor are just a short walk from the beautiful conference venue, the Baltimore Renaissance Harborplace Hotel.

VTC2007-Fall will offer technical sessions, tutorials, exhibits, and exciting keynote speakers to make a full program that will interest attendees from industry, government, and academia.

Submit a 5-page paper (or 2-page extended abstract, with results) in one of the following technical areas:

**Land Mobile Radio
Mobile Networks
Multiple Antennas and Space-Time Processing
Propagation and Modeling
Transmission Technologies
Transportation Systems
Vehicular Electronics
Wireless Access
Wireless Applications
Wireless Device Architectures**
